

VPA ICT — Grades 4–5 Assessment Pack

Grades 4 – 5 Assessment Pack

Program: Digital Fluency | Assessment Types: Formative (ongoing) & Summative (term-end)

Assessment Philosophy

Grades 4–5 assessment balances skill demonstration with project-based learning. Students build a digital portfolio throughout the year and complete timed practical assessments each term. EAL support includes bilingual rubrics, visual exemplars, and scaffolded tasks.

WPM Tracking System

Grade 4 Target (start)	Grade 4 Target (end)	Grade 5 Target (start)	Grade 5 Target (end)
8 WPM	12 WPM	12 WPM	20 WPM

Accuracy target: 90%+ for all levels.

Term 1 Assessment — Document Production

Criterion	Bronze	Silver	Gold
Text Formatting	Applies 2/4 formats (bold, italic, underline, color)	Applies 3/4 formats correctly	All 4 formats + font choice justified
Tables	Creates a table with 2 columns	Table with 3+ columns, formatted headers	Table with merged cells, borders, shading
Images	Inserts 1 image	Inserts 2+ images with resizing	Images with text wrapping and cropping
Headers/Footers	Adds page number	Header with name + footer with page number	Different header on first page
Collaboration	Shares document with teacher	Shares and comments on peer's work	Facilitates peer editing session

Term 2 Assessment — Data & Presentation

Criterion	Bronze	Silver	Gold
Spreadsheet Data	Enters 5+ rows of data	10+ rows, formatted headers	Data validated, sorted, formatted professionally
Formulas	Uses 1 formula	Uses 2+ different formulas	Uses SUM, AVERAGE, MAX, MIN with cell references
Charts	Creates 1 basic chart	Chart with title and labels	Appropriate chart type with legend, data labels

Criterion	Bronze	Silver	Gold
Presentation Design	3+ slides with text	5+ slides, consistent theme	Professional design, effective visuals, minimal text
Presentation Delivery	Reads from slides	Speaks with some eye contact	Confident delivery, engages audience, answers questions

Term 3 Assessment — Research & Coding

Criterion	Bronze	Silver	Gold
Research Skills	Finds 1 relevant source	Finds 2+ sources, takes notes	Evaluates source reliability; uses multiple sources
Digital Citizenship	Names 2 safety rules	Explains email etiquette	Discusses digital footprint with examples
Scratch — Movement	Sprite moves with green flag	Sprite responds to keyboard/mouse	Smooth movement with multiple control methods
Scratch — Variables	Creates a variable	Variable changes during program	Multiple variables used meaningfully
Scratch — Logic	Uses 1 if/then block	Uses if/then and loops together	Complex conditions with nested logic
Scratch — Polish	Program runs without crashing	Has title and instructions	Title, instructions, credits, sound, multiple scenes

Digital Portfolio Requirements

By the end of Grade 5, each student's portfolio must contain:

- ☐ Best document (formatted with table and images)
- ☐ Best spreadsheet (with formulas and chart)
- ☐ Best presentation (minimum 5 slides)
- ☐ Scratch project (with documentation)
- ☐ Research notes from one project
- ☐ WPM growth chart (all 3 terms)
- ☐ Self-reflection: "What ICT skill helped me most this year?"

Peer Assessment Forms

Document Review:

- ☐ The document looks professional and organized
- ☐ Text is formatted (bold/italic/color used well)
- ☐ Pictures support the text
- ☐ One thing I learned from this document: _____

☐ One suggestion: _____

Scratch Project Review:

☐ I could understand what to do without help

☐ The sprites move and interact

☐ There is a way to win or complete the task

☐ My favorite part: _____

☐ One idea to make it better: _____

EAL Support in Assessment

Bilingual rubrics: All assessment criteria available in English and Chinese

Visual exemplars: Bronze/Silver/Gold examples displayed before each task

Extended time: +10 minutes for Bronze-level students on practical tasks

Oral options: Students may explain their work orally instead of in writing

Sentence frames: Provided for all written reflections
