

VPA ICT — IGCSE Y10S1 Assessment Pack

IGCSE ICT Year 10 Semester 1 Assessment Pack

Syllabus: CIE IGCSE ICT (0417) Paper 3 | Advanced Practical Skills

Assessment Structure

Assessment	Format	Timing	Marks
Weekly Skills Tests	Single-focus task (e.g., create query in 15 min)	15 – 25 min	20
Mid-Semester Mock	Paper 3 Section A (Data + Web only)	1h 30m	45
End-of-Semester Mock	Full Paper 3 (all skill areas)	2h 30m	80
Theory Revision Tests	Paper 1 mixed topic questions	40 min	40

Paper 3 Marking Breakdown

Skill Area	Typical Marks	Key Evidence
Data Analysis	25 – 30	Spreadsheet with formulas, charts, pivot table, what-if
Web Authoring	25 – 30	Multi-page website with HTML, CSS, forms, tables, navigation
Databases	20 – 25	Tables, relationships, queries, forms, reports
Integration	5 – 10	Data transfer between applications; exported files

Data Analysis Marking Criteria

Skill	Marks	Evidence Required
Data import and cleaning	3 – 4	Correct data types, no errors, appropriate formatting
Formulas and functions	6 – 8	SUM, AVERAGE, IF, VLOOKUP, nested formulas, absolute references
Conditional formatting	2 – 3	Rules applied correctly, appropriate colors
Charts	4 – 6	Correct type, title, labeled axes, legend, data labels
Pivot tables	4 – 6	Correct fields in row/column/data areas, appropriate aggregation

Skill	Marks	Evidence Required
What-if analysis	3 - 4	Scenario manager, goal seek, or data table used correctly

Web Authoring Marking Criteria

Skill	Marks	Evidence Required
HTML structure	4 - 6	Valid DOCTYPE, head, body, correct nesting, semantic tags
Text formatting	3 - 4	Headings, paragraphs, lists, appropriate tags
Tables	3 - 4	Correct structure, borders, colspan/rowspan if required
Images	2 - 3	Inserted correctly, alt text, appropriate size
Hyperlinks	3 - 4	Internal and external links working, navigation bar
Forms	4 - 6	Correct input types, labels, submit button, method/action
CSS styling	4 - 6	External or internal CSS, consistent design, box model

Database Marking Criteria

Skill	Marks	Evidence Required
Table design	3 - 4	Correct fields, appropriate data types, primary keys set
Relationships	3 - 4	One-to-many links, referential integrity enforced
Queries	6 - 8	Simple, compound, calculated, aggregate queries correct
Forms	3 - 4	Data entry form with appropriate controls and layout
Reports	3 - 4	Formatted report with headers, grouping, totals

Timed Practice Schedule

Week	Focus	Duration	Target
2	Nested formulas + VLOOKUP	20 min	All formulas correct
4	What-if + pivot table	25 min	Working pivot, 2 scenarios
6	HTML + CSS page	30 min	Valid code, styled, 2 pages
8	Form + table	25 min	Working form, valid table

Week	Focus	Duration	Target
11	Relationships + queries	30 min	3 queries, referential integrity
13	Aggregate query + report	25 min	Correct grouping, totals
15	Integration task	20 min	Data flows between apps
18	Full Paper 3 mock	2h 30m	65/80 marks

Revision Checklist (End of Semester 1)

- ☐ Can create a spreadsheet with 5+ different formulas
- ☐ Can use absolute references correctly
- ☐ Can create and format 3 chart types
- ☐ Can build a pivot table with filters
- ☐ Can write valid HTML5 with correct structure
- ☐ Can style a website with external CSS
- ☐ Can create a working form with multiple input types
- ☐ Can design a relational database with 2+ tables
- ☐ Can create simple, compound, and aggregate queries
- ☐ Can design a form and report for data entry/output
- ☐ Can explain all Paper 1 theory topics from memory
- ☐ Can complete a 6-mark "discuss" question with balanced arguments
