

VPA ICT — IGCSE Y9S2: Document Production & Data Manipulation

IGCSE ICT (0417) — Year 9 Semester 2: Practical Skills

Syllabus: CIE IGCSE ICT (0417) Paper 2 | Exam: Paper 2 — Document Production, Data Manipulation & Presentations (2h30, 80 marks)

Duration: 18 weeks | Lesson Length: 40 minutes

Paper 2 Syllabus Coverage

Skill Area	Syllabus Ref	Weeks	Software
Document Production	10.1 – 10.5	1 – 9	Microsoft Word / LibreOffice Writer
Data Manipulation	11.1 – 11.5	10 – 14	Microsoft Excel / LibreOffice Calc
Presentations	12.1 – 12.4	15 – 18	Microsoft PowerPoint / LibreOffice Impress

Practical Assessment Format

Paper 2 (2 hours 30 minutes, 80 marks):

Students receive an electronic source file and an examination paper with instructions

All work must be completed on computer and saved to designated folder

Examiner marks printed evidence + electronic files

Students need to demonstrate BOTH technical skills AND accuracy

Semester Objectives

By the end of Semester 2, students will be able to:

- ☐ Create and format complex documents with styles, tables, and mail merge
- ☐ Build spreadsheets with formulas, functions, charts, and conditional formatting
- ☐ Design professional presentations with master slides, transitions, and embedded media
- ☐ Work accurately under timed conditions
- ☐ Follow complex instructions precisely
- ☐ Proofread and self-correct their work

Software Requirements

Software	Version	Alternative	Notes
Microsoft Word	2016 or later	LibreOffice Writer	Mail merge must be supported
Microsoft Excel	2016 or later	LibreOffice Calc	Pivot tables, charts, VLOOKUP required
Microsoft PowerPoint	2016 or later	LibreOffice Impress	Animations, transitions, master slides required

Differentiation for Practical Skills

Level	Document Production	Data Manipulation	Presentations
Bronze	Uses basic formatting; completes 60% of tasks	Enters data; uses SUM and AVERAGE	3+ slides with text and images
Silver	Uses styles and tables; completes 80% of tasks	Uses IF, VLOOKUP, charts	5+ slides with consistent design
Gold	Full mail merge, complex tables, all tasks	Nested functions, pivot tables, multiple chart types	Professional 8+ slide deck with master slides
