

VPA Digital Citizenship Framework

VPA Digital Citizenship Framework

Victoria Park Academy | ICT Programme

A comprehensive, age-appropriate framework for developing responsible digital citizens. Aligned with ISTE Standards for Students and Common Sense Education Digital Citizenship Curriculum.

Framework Pillars

1. Safety & Privacy 安全与隐私 — Protecting personal information and staying safe online
2. Respect & Kindness 尊重与友善 — Treating others with empathy and avoiding cyberbullying
3. Literacy & Critical Thinking 媒介素养与批判思维 — Evaluating information and recognising misinformation
4. Ethics & Responsibility 伦理与责任 — Understanding copyright, data ethics, and AI bias
5. Balance & Wellbeing 平衡与健康 — Managing screen time and maintaining digital wellness

Grade Band: G2 – 3 (Ages 7 – 8)

Focus: Safety, Kindness, Passwords

Learning Objectives

Identify personal information that should never be shared online (full name, address, school, phone number)

Create and remember a strong password using a memorable phrase

Describe what to do if something online makes them feel uncomfortable

Demonstrate kind and respectful communication in digital spaces

Recognise the difference between online friends and real-life friends

学习目标：识别不应在网上分享的个人信息；创建并记住强密码；描述在网上感到不适时的应对方法；在数字空间中展示友善和尊重的沟通方式；区分网友和现实中的朋友。

Key Activities

Password Superheroes: Students create a superhero identity and design a strong password based on their hero's catchphrase (e.g., "Spider-Man swings in 2024!" → SMsWi2024!)

Safe or Sorry: Sorting game where students classify information cards as "Safe to Share" or "Keep Private"

Kindness Chain: Students write positive digital messages on paper links; chain is displayed in the ICT lab

Trusted Adult Map: Students draw a map of trusted adults they can tell if something online worries them

Emoji Feelings: Using emoji faces to identify how different online scenarios might make them feel

主要活动：密码超级英雄——学生创建超级英雄身份并设计强密码；安全还是遗憾——分类游戏，将信息卡分为“可分享”和“保密”；友善链——学生在纸环上写下积极的数字信息；信任成人地图——画出可以倾诉的 trusted adults；表情感受——用表情符号识别不同网络场景的感受。

Assessment

Formative: Observation during sorting games; teacher checklist for password creation

Summative: Digital Safety Poster — students design a poster showing 3 rules for staying safe online (rubric: clarity, accuracy, visual appeal)

Peer Assessment: Students review each other's posters and add one positive suggestion

评估：形成性评估——观察分类游戏表现，检查密码创建；总结性评估——设计数字安全海报，展示3条网络安全规则；同伴评估——互相评价海报并给出建议。

Grade Band: G4 – 5 (Ages 9 – 10)

Focus: Privacy, Cyberbullying, Digital Footprint

Learning Objectives

Explain how websites collect data through cookies and forms

Define cyberbullying and describe strategies for bystander intervention

Understand that digital actions create a permanent footprint

Evaluate the appropriateness of content before sharing

Describe the difference between public and private online spaces

学习目标：解释网站如何通过Cookie和表单收集数据；定义网络霸凌并描述旁观者干预策略；理解数字行为会留下永久足迹；评估分享内容的适当性；区分公共和私人网络空间。

Key Activities

Cookie Trail: Students follow a simulated "cookie trail" showing how websites track preferences; discussion on privacy settings

Cyberbullying Scenario Cards: Role-play responses to cyberbullying situations using the STOP method (Stop, Tell, Offer support, Prevent)

Digital Footprint Art: Students create a footprint artwork where each toe represents a positive digital habit they will maintain

Privacy Policy Detective: Simplified analysis of a children's website privacy policy — what data is collected and why?

Think Before You Post: Students evaluate hypothetical social media posts using the THINK framework (True, Helpful, Inspiring, Necessary, Kind)

主要活动：Cookie追踪——模拟网站追踪偏好，讨论隐私设置；网络霸凌情景卡——用STOP方法角色扮演应对网络霸凌；数字足迹艺术——创作足迹艺术品；隐私政策侦探——简化分析儿童网站隐私政策；发帖前思考——用THINK框架评估假设的社交媒体帖子。

Assessment

Formative: Exit tickets after each activity; role-play observation rubric

Summative: Digital Citizenship Diary — 1-week reflection journal documenting online choices and their impact (rubric: reflection depth, honesty, action planning)

Peer Assessment: Partner review of diary entries with constructive feedback

评估：形成性评估——活动后出口票，角色扮演观察量表；总结性评估——数字公民日记，记录一周的网络选择及其影响；同伴评估——互相评阅日记并给予建设性反馈。

Grade Band: G6 – 8 (Ages 11 – 13)

Focus: Copyright, Misinformation, Critical Evaluation

Learning Objectives

Explain copyright, fair use, and Creative Commons licensing

Identify techniques used in misinformation and fake news

Evaluate the credibility of online sources using the CRAAP test

Understand how algorithms create filter bubbles and echo chambers

Describe the legal and ethical implications of plagiarism and piracy

学习目标：解释版权、合理使用和知识共享许可；识别错误信息和假新闻的常用技巧；用CRAAP测试评估网络来源的可信度；理解算法如何制造过滤气泡和回声室；描述抄袭和盗版的法律与伦理影响。

Key Activities

Copyright Court: Mock trial where students argue copyright cases (sampling music, using images in presentations, remixing videos)

Fake News Factory: Students create a deliberately misleading headline, then analyse how techniques (emotional language, false authority, cherry-picked data) manipulate readers

CRAAP Test Challenge: Teams evaluate 5 websites on Currency, Relevance, Authority, Accuracy, Purpose; present findings

Filter Bubble Simulation: Students search the same term on different accounts and compare results; discuss algorithmic bias

Creative Commons Scavenger Hunt: Find and correctly attribute images, music, and text using CC-licensed sources

Fact-Check Relay: Rapid-fire fact-checking of viral claims using Snopes, FactCheck.org, and primary sources

主要活动：版权法庭——模拟审判版权案件；假新闻工厂——学生制作误导性标题并分析操纵技巧；CRAAP测试挑战——团队评估网站可信度；过滤气泡模拟——不同账户搜索同一词汇比较结果；知识共享寻宝——寻找并正确标注CC许可资源；事实核查接力——快速核查 viral claims。

Assessment

Formative: Source evaluation worksheets; peer review of Creative Commons attributions

Summative: Misinformation Investigation Report — students investigate a viral claim, trace its origin, evaluate evidence, and write a 500-word report (rubric: research depth, source quality, argumentation, citation accuracy)

Peer Assessment: Cross-class review using structured feedback forms

评估：形成性评估——来源评估工作表，同伴评阅CC标注；总结性评估——错误信息调查报告，调查 viral claim 的起源和证据，撰写500字报告；同伴评估——跨班级结构化反馈。

Grade Band: G9 – 10 (Ages 14 – 15)

Focus: Data Ethics, AI Bias, Global Digital Citizenship

Learning Objectives

Analyse how big data collection impacts privacy and autonomy

Explain algorithmic bias and its societal consequences

Evaluate the ethical implications of AI in surveillance, employment, and healthcare

Understand data protection regulations (GDPR, PIPL) and their global impact

Propose ethical frameworks for technology development and use

Engage in informed debate about digital rights and responsibilities

学习目标：分析大数据收集如何影响隐私和自主性；解释算法偏见及其社会后果；评估AI在监控、就业和医疗中的伦理影响；理解数
据保护法规（GDPR、PIPL）及其全球影响；提出技术开发和使用的伦理框架；参与关于数字权利和责任的知情辩论。

Key Activities

AI Bias Audit: Students test facial recognition or hiring algorithms with diverse datasets; document and present bias findings

Data Ethics Case Studies: Analyse real cases (Cambridge Analytica, facial recognition in China, algorithmic sentencing in US courts)

GDPR vs PIPL Debate: Structured debate comparing EU and Chinese data protection frameworks

Ethical Technology Design Sprint: Teams design an app with built-in ethical safeguards; present to a panel

Digital Rights Manifesto: Students draft a class manifesto on digital rights, vote on clauses, and publish on the school website

Guest Speaker Series: Invite data protection officers, AI researchers, and digital rights activists for Q&A sessions

主要活动：AI偏见审计——用多样数据集测试面部识别或招聘算法；数据伦理案例研究——分析真实案例；GDPR vs PIPL辩论——比
较欧盟和中国数据保护框架；伦理技术设计冲刺——设计带有伦理保障的应用；数字权利宣言——起草班级数字权利宣言并发布；嘉
宾演讲系列——邀请数据保护官员、AI研究员和数字权利活动家。

Assessment

Formative: Case study analysis sheets; debate participation rubric; design sprint peer feedback

Summative: Digital Ethics Position Paper — 1500-word argumentative essay on a chosen digital ethics topic (rubric: argument strength, evidence quality, counter-argument engagement, ethical framework application, academic citation)

Peer Assessment: Blind peer review using academic review criteria; revision based on feedback

评估：形成性评估——案例分析表，辩论参与量表，设计冲刺同伴反馈；总结性评估——数字伦理立场论文，1500字论证性文章；同
伴评估——盲审学术评审标准，根据反馈修改。

Whole-School Digital Citizenship Calendar

Month	Theme	Whole-School Activity	Parent Engagement
September	Digital Safety Week	Assembly: "Your Digital Self"; password workshops; safety poster competition	Parent workshop: "Keeping Children Safe Online"
October	Cyberbullying Prevention	Peer mentor training; kindness pledge; anti-bullying video project	Newsletter: Recognising signs of cyberbullying
November	Media Literacy Month	Fact-checking challenges; source evaluation across subjects	Family activity: "Spot the Fake News" game
December	Digital Wellness	Screen time audit; digital detox challenge; balance goal-setting	Parent guide: "Healthy Screen Time Habits"
January	Copyright & Creativity	Creative Commons film festival; attribution workshops	Workshop: "Supporting Creative Kids Responsibly"

Month	Theme	Whole-School Activity	Parent Engagement
February	Data Privacy Awareness	Privacy settings audit; GDPR/PIPL education; data mapping exercise	Newsletter: "Understanding Your Child's Data Rights"
March	AI & Ethics	AI bias experiments; ethical design challenges; guest speakers	Panel discussion: "AI in Our Children's Future"
April	Global Digital Citizenship	Cross-cultural collaboration project; digital rights manifesto	International parent Zoom: "Digital Citizenship Across Borders"
May	Digital Leadership	Student digital ambassadors; peer teaching; community outreach	Celebration event: "Digital Citizenship Awards"
